

Introduction to ISO 45001– Occupational Health and Safety Management Systems

Mode: eLearning || **Duration:** 30 hours – 3 months || **Price:** consult website

Qualification

At the end of the course, participants will receive a certificate of attendance for the **Introduction to ISO 45001 – Occupational Health and Safety Management Systems course**. Qualification awarded by Bureau Veritas Business School.

Aimed at

The Introduction to ISO 45001 – Occupational Health and Safety Management Systems course is aimed at **occupational-risk prevention** managers and technicians, people with responsibility for the organisation's management systems, professionals with expertise in **occupational health and safety** management and any person interested in knowing, managing, maintaining, designing or implementing an **Occupational Health and Safety Management System**, according to the specifications of the **ISO 45001 Standard**.

It is also aimed at all those who, due to their training or profession, need to **acquire or broaden their knowledge of Occupational Health and Safety Management Systems** or who want to focus their working activity on one of the professions with the highest demand.

Objectives

The overall course objective is for participants to acquire the knowledge, skills and attitudes that determine the professional competencies necessary to develop an **Occupational Health and Safety Management System based on the ISO 45001 standard**,

At the end of the course the student will be able to:

- Recognise the structure and requirements of the new ISO 45001.
- Understand the concept of High Level Structure.
- Identify the main changes introduced in ISO 45001 with respect to OHSAS 18001.
- Develop a management system according to ISO 45001.
